

Chunking a paragraph into clauses

Every time you have a finite verb form, you have a clause! *Conjunctions* and *particles* will help you recognize clause boundaries, and understand how they are connected logically.

In the passage below, separate all clauses with a vertical line | between them, and underline finite verb forms. The following conjunctions and particles are discussed in your reading for next week:

Conjunctions:

- ἀλλά
- καί

Postpositive particles

- γάρ
- μέν...δέ...δέ
- οὖν
- τε
